

Virtual or In-Person

Post-Graduation Student Activities Grant

As students prepare for life after graduation, this is a golden opportunity for Younger Members to help students steer the ship of their professional careers. To assist with promoting this interaction between Younger Members and Students, we are welcoming applications for the Post-Graduation Student Activities Grant.

Grant Goals

- Connect with faculty advisors, Committee on Student Member representatives, and with local student leaders and members.
- Develop long-lasting relations between students, younger member groups, professionals and the Society.
- Inspire students and enhance awareness about matters pertaining to student preparation for life after college, their early professional activities, and their continued affiliation with the Society.
- Help students identify with the ASCE younger member experience and further their understanding of the value of continued association with other young professionals who have previously made this transition.
- Transcend the physical barriers imposed by the pandemic and use modern technology to stay connected as a society.

To support these goals, the Committee on Younger Members are accepting proposals for grants up to **\$300** for younger member groups to organize in-person or virtual interactions in their local area. [See "Need Ideas?" page for suggestions!] **The grant activity must be completed by September 15th, 2022. Activity Report and receipts must be completed by September 22nd, 2022 to receive payment.**

If your group is interested in applying, please complete the proposal application on the following pages and submit it via email to youngermember@asce.org no later than **June 17, 2022 at 11:59 PM EST**

Grant Proposal

Deadline –June 17, 2022 at 11:59 PM EST

Name of Entity (YMG/YMF, Section, Branch, etc.) requesting the grant:

Main Contact (name/email/phone) for the grant proposal:

Need ideas?

- Host an in-person event or webinar and reimburse students for their lunch orders. Webinars may include:
 - Tips for navigating the job search landscape
 - Post-College Personal Branding and Transitions
 - Preparing for the first annual performance review as a new graduate
 - Finding the right mentor in the early stages of one's engineering career
 - Benefits of continued engagement in ASCE
- Meet in person or use a virtual platform to host interactions with students. Topics may include:
 - Resume review with mock phone interviews
 - Overcoming most common challenges while searching for a job as a graduate

ASCE YOUNGER MEMBERS

- Networking at professional society events
- Finding job shadowing opportunities with target firms
- Organize an in-person or virtual construction site visit
- Create an online mentoring program.
