

Harold R. Peyton Award for Cold Regions Engineering Nomination Form

Nominations for the Peyton Award require submittal of both an Official Nomination Form and a Peyton Award Nomination Form. Please respond to the following questions and submit fifteen (15) copies of the complete nomination package, including the nominated paper, to the ASCE Awards Committee before April 1.

ASCE Awards Department
1801 Alexander Bell Drive
Reston, VA 20191-4400

Nominee's Name: _____

Current Position: _____

Area of Specialization: _____

Current Age: _____ Total Years of Cold Regions Experience: _____

Previous ASCE Awards: _____

Please attach a current resume in sufficient detail to demonstrate to the Committee why this nominee should be considered for the Peyton Award. The attachment should contain specific information to show that this member of the Society has made outstanding contributions in the following general areas:

- Activities and accomplishments that have contributed to cold regions engineering
- Activities and accomplishments that have contributed to the basic understanding of cold environments
- Publications related to cold climate technology

Note: It is the Committee's feeling that the supporting documentation should clearly show a long, sustained contribution to the study and practice of cold regions engineering. It is their aim to recognize senior individuals who have worked throughout the majority of their careers in this area of civil engineering.
