

February 28, 2012

California Infrastructure Symposium Awards Dinner

Hyatt Regency . 1209 L Street . Sacramento

Overview

The American Society of Civil Engineers (ASCE) realizes that critical infrastructure systems are facilities and assets so vital that their destruction or incapacitation would disrupt the security, economy, safety, health, or welfare of the public. One of ASCE's top priorities is to raise the grades on California's infrastructure. ASCE Region 9 is taking the lead by presenting the **Sixth Annual California Infrastructure Symposium**. The Infrastructure Symposium will cover discussions about: Water Infrastructure Funding, New Stormwater Permits and Implications, Major Water/Recycled Water Projects, Federal and State Transportation Funding-Where's the Money?, Project Funding Acceleration-Doing more with less!, and Environmental Clearance Acceleration-Reducing the hurdle! You will also be the first to hear about California's new Statewide Report Card which will identify and bring attention for infrastructure support and renewal in California.

Following the Infrastructure Symposium, you may also register for an evening to celebrate excellence in California Civil Engineering projects and honor the outstanding accomplishments of individuals at the ASCE Region 9 Awards Dinner, or participate in the ASCE Region 9 Legislative Day on Wednesday, February 29.
