

# 2012 Western Regional Younger Member Council

## Pre-Conference Tour

### JELD-WEN Field

Originally constructed in 1926, JELD-WEN Field is one of Portland's historic venues for sports and entertainment. The stadium is primarily known as home to the Major League Soccer team, Portland Timbers. The tour will include a look at the recent \$40m renovation that makes the stadium LEED Silver Certified.

### BridgePort Brewery

Part two of the tour will include dinner and a tour of Portland's oldest craft brewery. BridgePort began as a 600-barrel brewery in 1984, and now produces over 100,000 barrels per year. The brewery itself is housed in the historic Portland Cordage Company Building, which was built in 1886.

We will depart from downtown Hilton at 2:30pm, returning at approximately 9:00pm. We expect to have time to stop in to another local Portland pub to enjoy more delicious microbrews between Jeld-Wen Field and BridgePort Brewery.

\$50 includes transportation, tours, drinks, and dinner.
