

Unified Vision for the Structural Engineering Profession

CASE, NCSEA, and SEI share a unified vision where the Structural Engineering profession is recognized and admired for its irreplaceable and ongoing contributions to society. Namely, Structural Engineers are creative partners in producing safe, sustainable, and resilient designs that enhance the public's lived experiences in every community.

To make this vision a reality, CASE, NCSEA, and SEI are committed to the following aspirational tenets:

INNOVATE

- **Advance:** Embrace life-long learning of new skills and innovative technologies to create and advance the built environment.
- **Educate:** Inform the public about the important work of Structural Engineers through public-speaking, marketing, and cross-disciplinary collaboration.

LEAD

- **Advocate:** Serve the public as indispensable problem-solvers, advocates, and stewards of the built environment while engaging in development of key policies that improve the safety and well-being of the public while advancing society on a global scale.
- **Create:** Provide technically excellent structural solutions for resilient communities that protect lives and property, preserve the past, and consider current and future societal needs.

EMPOWER

- **Attract:** Develop and mentor emerging future leaders of the profession and represent the diverse perspectives of the communities that we serve.
- **Engage:** Inspire the best and brightest individuals to pursue rewarding careers in Structural Engineering filled with opportunities and roles that are dynamic and meaningful.
