

INTERNATIONAL AIRFIELD & HIGHWAY PAVEMENTS CONFERENCE

Austin, TX | June 14-17, 2023

Submission Topics

- Asphalt Binder and Mixture Characterization
- Concrete Mixture Characterization
- Unbound Pavement Materials
- Highway and Airfield Pavement Numerical Modeling & Analytics
- Innovative Sustainable Methods, Materials, and Recycling

For full details and additional sub-topics, please visit:

Submit your abstract today!
Call for Submissions Deadline is
Thursday, October 13, 2022

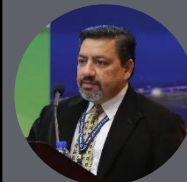

<https://www.pavementsconference.org/>

The Pavements Steering Committee invites you to submit an abstract for the ASCE **International Airfield and Highway Pavements Conference (Pavements 2023)**, scheduled to be held in Austin, Texas, June 14-17, 2023, at the Hilton Austin. Co-locating with the International Conference on Transportation and Development, and in partnership with TxDOT, ASCE's longstanding specialty conference on pavement engineering covers all the major topics ranging from Concrete Mixture Characterization to Machine Learning and AI Applications in Pavements.

Meet the Conference Co-Chairs

Amit Bhasin
Professor, and Director of the Center for Transportation Research, University of Texas at Austin

Navneet Garg
Program Manager, Federal Aviation Administration

Julie Vandebossche
William Kepler Whiteford Professor, University of Pittsburgh

Important Dates

OCT 13 - Deadline to submit abstracts

NOV 15 - Deadline to submit papers
(Papers are optional)

FEB 8 - Speaker registration deadline
