ASCE DAY – 2023

(05th November 2023)

ASCE DAY 2023 – PLANTATION DRIVE - This significant event marks the commemoration of the Society's founding on November 5, 1852, when a group of twelve distinguished engineers convened at New York City's Croton Aqueduct to establish what would eventually become the prestigious American Society of Civil Engineers. This year, we proudly celebrate ASCE's 171st anniversary, a testament to our enduring legacy in the realm of civil engineering. **ASCE SRM Student Chapter, SRM Institute of Science and Technology** in association with **ASCE India Section Southern region** planted **171 saplings** to mark the celebration of ASCE Day on the periphery of **Ninnakarai pond, Chengalpattu, Tamil Nadu, India** in the presence of **Dr. V.Thirumurugan**, Associate Director, Campus Life, SRMIST, **Dr.S.Pradeep**, President, ASCE India Section Southern Region, and Students and Faculty members of ASCE SRM Student Chapter.

ASCE INDIA SECTION SOUTHERN REGION

ASCE DAY'23

As a part of celebration of ASCE Day, on 5th November 2023 we planted a plant for this society. It is to address environmental challenges such as climate change, deforestation, pollution, and loss of biodiversity. It serves as a reminder of our collective responsibility to protect and nurture our planet for future generations. The celebration of ASCE Day is an opportunity for individuals to reflect on their own environmental footprint and make conscious efforts to adopt sustainable practices in their daily lives. It encourages everyone to take small but meaningful actions that can contribute to a healthier and more sustainable planet.

ASCE DAY

On Asce Day the civil department of the college organised a sapling planting event in the college campus. The event was held at 3:30 PM and was attended by the Head of the Civil Department, Dr. Jiji Antony, the Vice Principal, Dr. Mini, faculty member Jawahar sir, and students.

The event aimed to promote environmental awareness and encourage students to take an active role in preserving the environment. The saplings were planted in various locations across the campus, including the garden, the parking lot, and the walkways.

The event began with a brief introduction by Dr. Jiji Antony and Dr. Mini, who spoke about the importance of preserving the environment and the role that students can play in achieving this goal. They also highlighted the benefits of planting trees, such as reducing air pollution, providing shade, and improving the aesthetic appeal of the campus.

After the introduction, the participants were divided into groups, and each group was assigned a specific location to plant the saplings. The students were provided with the necessary tools and equipment, such as shovels and watering cans, to plant the saplings.

The planting process was supervised by the faculty members and the asce cabinet members, who provided guidance and assistance to the students. The students worked together in their groups to plant the saplings, and the entire process was completed in a few hours.

The event was a great success, and the participants expressed their satisfaction with the outcome. The saplings were planted in a manner that ensured their survival, and the participants were encouraged to take care of the saplings and monitor their growth.

The event organised by the civil department of the college as part of ASCE DAY was a great success. The event helped promote environmental awareness and encouraged students to take an active role in preserving the environment. The saplings were planted in various locations across the campus, and the participants were satisfied with the outcome of the event.
