REVIEW PROCEDURE FOR FELLOW APPLICATIONS

All applications will be thoroughly considered by the Membership Application Review Committee (MARC), which is responsible for review of all ASCE Fellow applications, as well as all applications requiring evaluation of responsible charge of engineering experience and other issues. The MARC is composed of 10 ASCE Fellows and Honorary/Distinguished Members, and meets once monthly as needed to review ASCE Fellow applications and non-standard member upgrades.

All applications for advancement to the Fellow grade are handled by the Application Administrator. The application will be initially reviewed to ensure that all documents have been received, at which time the application and accompanying documents will be scheduled for review at the next monthly meeting of the MARC. Advancement to the Fellow grade requires unanimous assent of all the MARC. The MARC is authorized to grant waivers of any requirement, upon unanimous assent of all the MARC members. All applicants who are approved for advancement to Fellow grade will be notified by the ASCE Staff Liason.

Any applicants who are not approved for advancement to ASCE Fellow subsequent to MARC review will receive an explanation from the Committee, and the applicant may choose to submit additional documentation for consideration. Any ASCE Fellow applicant who is not unanimously approved may follow the approved appeals procedures as described in the ASCE Rules of Policy and Procedure.
