

# Dream Big Educational Toolkit Distribution

## Frequently Asked Questions

**Q. What does the toolkit include?**

**A.** The toolkit includes the full-length feature film in English, French, Spanish and closed captioned, [licensed for educational screenings](#). The two-disc set also includes the complete teacher's guide, all companion videos, and downloadable files for classroom use.

**Q. Does the \$5 price include shipping?**

**A.** Yes, the \$5 price includes the toolkit and domestic shipping and handling. For international orders, the cost is \$5 plus applicable shipping.

**Q. What about private and parochial schools, or schools outside the U.S.?**

**A.** ASCE has pledged to place the toolkit in every public school in the U.S., including charter schools and schools on U.S. military bases operated by the Department of Defense. We encourage individuals or companies to consider placing the toolkit in other schools. You may "write in" the names and locations of private or parochial schools in the U.S. when you purchase a DVD. The \$5 cost is the same as for public schools. For international distribution, you may access a form and your order will be processed separately. Shipping for international orders will be the actual amount and may vary based on location.

**Q. Can I also buy one of the toolkits for my personal use?**

**A.** Sorry, no. The toolkit includes a copy of the film licensed for educational use only. A copy of the film licensed for home viewing can be streamed on Netflix (starting July 2018) or purchased from ASCE or from Amazon (starting August 2018).

**Q. Instead of a DVD, why not provide a streaming version to reach all schools?**

**A.** A streaming version that includes educational rights is available on Netflix. However, due to different levels of internet connectivity and technical infrastructure, as well as policies set by local school districts, many schools do not have the capacity to stream a feature-length high-definition films. Also, the toolkit contains the teacher's guide and other resources.

**Q. What if our local group would prefer to focus on elementary school instead of middle school?**

**A.** ASCE members and others are encouraged to place DVDs in elementary schools as well as middle schools. However, ASCE will match contributions made by Sections and Branches to middle schools to help ensure that we reach all middle schools.

**Q. Can our local group sponsor distribution to both the elementary and middle schools in our area?**

**A.** Yes! Toolkits are just \$5 for any school. However, the matching program is targeted to middle schools only.

**Q. Will we be recognized as the sponsor on the toolkit?**

**A.** Toolkits fulfilled from our mailhouse cannot be custom labeled to recognize sponsors. If you wish to label the toolkit to recognize your contribution, we will ship the toolkit directly to you. You will be responsible for labeling and delivering the toolkit to the schools of your choice.

**Q. Is my contribution tax-deductible? Will I receive a receipt?**

**A.** Your tax advisor can advise on whether your contribution qualifies for a tax deduction. Your purchase confirmation will serve as your receipt.

**Q. The school I would like to support has already been sponsored. Is there another way to contribute?**

**A.** Please consider purchasing a toolkit for general distribution to help us reach every school.

**Q. I would like to work directly with my local school instead of just send the toolkit. Can you suggest a way to do that?**

**A.** Yes! We recommend that you reach out to your school's STEM coordinator, principal or parent/teacher organization to discuss ways to get involved. Visiting the classroom, contributing materials for hands-on activities, or organizing a Family Engineering Night are all good ideas.
