## WHO WE ARE

The American Society of Civil Engineers (ASCE) was founded in 1852 and represents more than 150,000 members of the civil engineering profession in 177 countries. ASCE stands at the forefront of a profession that plans, designs, constructs, and operates society's economic and social engine—the built environment—while protecting and restoring the natural environment.

ASCE is a leading provider of technical and professional conferences and continuing education, the world's largest publisher of civil engineering content, and an authoritative source for codes and standards that protect the public.
