

TIMBER-STRONG DESIGN BUILDSM COMPETITION - ADDENDUM 1

Date: March 8, 2021

Description: The Timber-Strong Design BuildSM Competition is being conducted at four 2021 ASCE Student Conferences: the Pacific Southwest Student Conference being held March 25-27, and the Mid-Continent, New England, and Pacific Northwest Student Conferences being held on various days of April 15-18.

The Request for Information (RFI) period is being extended for the Mid-Continent, New England, and Pacific Northwest Student Conferences due to the following:

- the Rules were posted in January which is later than usual, in part due to making the competition virtual due to the COVID-19 pandemic;
- this in the first time these three student conferences are hosting this competition and student chapters are not familiar with the Rules; and
- the competitions are not advancing to a Society-wide finals.

Please see below for the modifications (in red) to RFI timing.

4.2 GENERAL INFORMATION

Request for Information (RFI)

Requests for information (RFI) should be sent to student@asce.org with the subject line “**TSDB Competition RFI**”. Clarifications will be posted on the [Timber-Strong Design Build Competition Collaborate Site](#) **at least** every other Friday starting January 1, 2021 until February 26, 2021 **for the Pacific Southwest Student Conference and until March 19, 2021 for the Mid-Continent, New England, and Pacific Northwest Student Conferences**. Each post will address the questions received from the previous two weeks **(at a maximum)** through the Wednesday before 11:59 PM Eastern Time.
